CapaCare Protect

Premium quality 100% pure acrylic water based emulsion to offer complete protection against harmful micro-organisms, while aesthetically enhancing interiors at the same time.

CapaCare Protect is developed with unique Silverbac technology to persistently inhibit the growth of viruses and bacteria on the coated surface, decreasing the spread of contagious diseases.

What does Silverbac technology offer?

PROTECTION AGAINST CORONAVIRUS

- CapaCare Protect is the only paint in the region with 99.9% kill rate against Human Coronavirus and H1N1 A, tested as per American and Japanese standards in two independent ISO 17025 laboratories in USA, approved and accredited by International Anti-Microbial Council.
- Inhibits growth of broad spectrum of micro-organisms creating a safer environment at home.
- Offers outstanding Anti-Microbial effectiveness against pathogens such as Escherichia coli (E.coli), Methicillin-resistant Staphylococcus aureus (MRSA), Clostridium difficile, Klebsiella pneumoniae, Staphylococcus epidermidis, Staphylococcus aureus, Aspergillus niger, and a surrogate virus for Norovirus (feline calicivirus).

SAFETY

Uses naturally occurring pure silver, certified as bio-compatible and non-toxic.

EFFICIENCY

Silverbac has good efficacy due to being intimately blended into the raw materials of the product.

How does CapaCare Protect work ?

- 1 Acts on contact with the microbes
- 2 Stops the multiplication and growth of microbes on the surface of the film
- 3 Silver-ions damage microbial membrane which leads to killing the microbes

Features

(Available in Matt & Silk)

- ✓ Anti-Viral
- ✓ Completely Odourless
- ✓ APEO and Heavy Metal Free
- ✓ Formaldehyde free
- ✓ Easy Clean and Highly Washable
- ✓ Crack Bridging
- ✓ Highly Durable to disinfectants
- ✓ Anti-Microbial Protective Technology
- ✓ Improving indoor Air Quality
- ✓ Excellent water barrier properties
- ✓ Fire Resistant
- ✓ Seamless touch up

Tested and certified according to all local regulations

- ✓ Tested for Human Coronavirus and H1N1 A by ISO 17025 Laboratories in USA
- ✓ Volatile Organic Content tested as per USEPA 24
- ✓ Heavy Metals Free as per ASTM E1613/IHP028
- ✓ Fungal resistant according to ASTM D3273-94
- ✓ 99.9% Anti-Microbial kill rate as per JIS Z 2801:2000
